OCT 17 1944

CURRENT LIST of MEDICAL LITERATURE

Vol. 7 Oct. 6, 1944 No. 14

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

Privately published under the auspices of the
FRIENDS OF THE ARMY MEDICAL LIBRARY
AND THE
MEDICAL LIBRARY ASSOCIATION, INC.

Washington, D. C.

Printed in the U.S.A.

1. Anatomy; Histology

Zschr. Zellforsch., 1943-44, 33: (Dec. 30)

SCHMIDT, W. J. Ueber Doppelbrechung und Feinbau der Darmepithelzellen der Kaulquappe. 1-4.

BARGMANN, W., & SCHEIFFLER, A. Ueber den Saum des menschlichen Darmepithels. 5-13.

VILLOGAMO, G. Sulla morfogenesi e sull architettura della membrana del timpano. 14-39.

APOR, L., & STOHL, G. Untersuchungen über den Tagesrhythmus in der Hypophyse der Tauben. 40-50.

GOLLNER, H. Ueber den Feinbau der Epiphysis cerebri von Nagetieren und die Frage seiner funktionellen Veränderungen. 51-67.

HAGEN, E. Beitrag zur Histopathologie des Enlagrenzstranges bei der Raynaudschen Erkrankung. 68-85.

GEREY, L. Die Wirkung von wasserlöslichen Vitaminen auf Fibrocyten der Gewebekultur, untersucht an Vitalfärbungsversuchen mit Neutralrot und Toluidinblau. 86-108.

STOERR, P., JR. Studien zur normalen und pathologischen Histologie vegetativer Ganglien. II. 109-42.

KIKUCHI, K. T. Zur Histologie des Tuber cinereum des Menschen; ein Beitrag zur Frage der Neurokrinie. 143-50.

ENT, J. Zur feineren Innervation der arterio-venösen Anastomosen in der Fingerbeere des Menschen. 151-6.

CIACCIO, G. Ricerche sulla fibra muscolare striata; esame con la fotografia a luce ultravioletta. 157-66.

4. Aviation Medicine

Air Surgeon's Bull., 1944, 1: No. 8

GROW, M. C. Aviation medicine in the Eighth Air Force. 1-3.

HASTINGS, D. W. Psychiatry in the Eighth Air Force. 4.

RHEUMATIC FEVER in the Army Air Forces. 6-8.

BODY ARMOR in the AAF. 9.

SUPPRESSIVE DRUG THERAPY in the control of malaria. 10.

STRATTON, K. L. Trifocal lens for pilots. 11.

ROWLAND, W. M., & MANDELBAUM, J. Testing night vision. 14.

MITCHELL, T. S. Field medicine in India; care and evacuation of casualties. 16-8.

ANDERSON, O. W. L-5B litter support installation. 19.

DENTAL instrument case. 20.

LONG, G. L. Suggestions for dental education. 21.

SPACKER, J. C. Dentures and oxygen mask. 21.

HUTTON, C. A., & MOORE, J. L. A visual roster of dental service for combat crews. 22.

KRAMAN, B. Collapsible dental cuspidor. 23.

Contact, Pensacola, 1944-45, 4: No. 1

/ILLUSTRATION/ Aerial view of Naval School of Aviation Medicine at Pensacola. front.

GRAHAM, C. L. The development of training of naval flight surgeons. 277-80.

ROYER, C. A. Remarks on duty with a Carrier Aircraft Service Unit. 281-5.

BASSETT, C. G., & DEAN, G. O. A survey of possible assignments and duties for naval flight surgeons. 286-94.

J. Aviat. M., 1944, 15: (Aug.)

TAYLOR, C., & BROWN, C. E., JR. Some observations on the validity of the Schneider test. 214-30.

MCCONNELL, W. C., & MCCONNELL, W. H. Neuropsychiatric aspects of the civilian pilot examination. 231-7.

DAMON, A., RANDALL, F. E. /et al./ The importance of human sizing standards in aviation. 238-43.

STERNSTEIN, H. J., & MOORHOUSE, J. B. The effect of nasal ventilation upon tubal equalizing efficiency in flying personnel. 244-57.

HERBOLSHEIMER, A. J. The role of the extra-ocular musculature in the aviation physical examination. 258-63.

POOS, E. E. Allergy of the upper respiratory tract. 264-71.

BACKENSTOE, G. S. Preliminary survey on the color-vision plates of Shinobu Ishihara. 272-8.

CAMPBELL, I. M. An unusual type of aircraft accident. 279. /Aviation, Accident "Thunderhead" storm/

5. Bacteriology; Parasitology

J. Bact., Balt., 1944, 48: (July)

MUNDT, J. O., & FABIAN, F. W. The bacterial oxidation of corn oil. 1-11.

SPIEGELBERG, C. H. Sugar and salt tolerance of Clostridium pasteurianum and some related anaerobes. 13-30.

SVEC, M. H., & MOODY, E. A chemical and immunological study of the capsular polysaccharide of Clostridium perfringens. 31-44.

CARLE, B. N., DEWHIRST, W. H., JR. /et al./ Experiments on the transmission of an ioterogenic agent in yellow fever vaccine to horses and swine. 45-69, incl. 3 pl.

CAMPBELL, J.J.R., & GUNSALUS, I. C. Citric acid fermentation by streptococci and lactobacilli. 71-6.

MAIN, E. R., & LOCKIE, A. Carbonic anhydrase; effect on growth of the type I pneumococcus, in vitro. 77-81.

YEGIAN, D., & PORTER, K. R. Some artifacts encountered in stained preparations of tubercle bacilli; non-acid-fast forms arising from mechanical treatment. 83-91, incl. pl.

MAYER, R. L. The influence of sulfanilamide upon the yellow pigment formed by Mycobacterium tuberculosis from p-aminobenzoic acid. 93-6.

FOSTER, J. W. Microbiological aspects of riboflavin; oxidation tudies with Pseudomonas riboflavina. 97-111.

CHAPMAN, G. H. The isolation of streptococci from mixed cultures. 113.

GRIFFIN, A. M., & ROBBINS, M. L. The flagellation of Listeria monocytogenes. 114.

PERLMAN, D. Fermentations by streptothricin-resistant cultures of Aerobacillus polymyxa. 116.

WRIGHT, L. D., & SKROOS, H. R. The growth factor requirements of certain streptococci. 117.

DAY, H. G., WAKIM, K. G. /et al./ Effects of succinylsulfathiazole on the intestinal flora and nutritional status of rats fed evaporated milk. 119.

KETCHUM, H. M., & CONKLIN, R. L. Microbiological assay of calcium pantothenate. 119.
WAGNER, M. Bacteriological changes accompanying complete intestinal stasis by mechanical obstruction of the anus of the adult albino rat. 119.
REBACK, J. The intestinal flora of white rats maintained on a sterilized diet with sulfaguanidine in the water supply; preliminary report. 120.
TEAH, B. Comparison of various media suggested for the cultivation of germ-free Musca domestica from eggs to adults. 120.
THOM, C. The biological whereabout of the penicillia. 120.
MCCORMACK, R. B., JONES, H. P., & PLAUT, G. Biological methods of penicillin assay. 121.
RAKE, G., & HAMRE, D. M. Microbiological methods of identification of penicillin. 121.
MCKEE, C. M., & DUNHAM, W. B. Development in vitro of strains of organisms resistant to penicillin. 121.
CHURCH, C. F. Penicillin and therapy. 122.
DIACHUN, S., & VALLEAU, W. D. Growth of some animal pathogens on wheat roots. 122.
_____ Growth and overwintering of plant pathogenic bacteria on wheat roots. 122.
HAMANN, C. B. A study on the relationship of bacteria to the cultivation of Balantidium coli. 123.
WILDER, C. J., & STARK, W. H. The isolation and study of bacteriophage from fermentations of Aerobacter aerogenes in a 2,3--butylene glycol pilot plant. 123.
THORNTON, H. Biochemical and serological studies of the genus Proteus. 123.
KNIGHTON, H. T. Antigenic and pyrogenic effects of an ossein gelatin on guinea pigs and rabbits. 124.

J. mikrob., Moskva, 1944

MITEREV, G. A. /Future problems of public health/ 3-13.
GROMASHEVSKY, L. V. /Investigations on typhus in 1944/ 13-7.
_____, BAGROVA, A. S., & STEPANOV, I. R. /Epidemiology of typhus; the nature of interruption in the course of morbidity in an endangered populated locality/ 17-26.
TOKAREVICH, K. N. /Laboratory typhus infection as material for discussion of the problem of the mechanism of infection/ 26-9.
AVTSYN, A. P., & SKLTSOVSKAIA, M. A. /Histopathology of rickettsia pneumonia in white mice/ 29-34.
SHUKLADZE, A. K., SOLITERMAN, P. L., & STERNGOLD, E. J. /Typhus antisera/ 35-7.
POPKHRO, P. K. /The dissociation of typhus virus (historical and tick) from the neutral mixture in accordance with the site of injection/ 38.
KHADZHIDIMOVA, D. D. /Experimental adsorption and elution of typhus virus/ 39.
ZHAK, S. P., & TARABUKHINA, E. V. /Weil-Felix reaction in the vaccinated with Krontovskaia's vaccine/ 40.
GUBERGRITZ, A. J., & MOROZ, A. P. /Weil--Felix reaction in the cerebro-spinal fluid of typhus patients/ 41.
KYZHOV, N. V. /An improved modification of the Weil-Felix reaction according to I.A. Minkievich/ 43.
GREENBAUM, G. I., & KUPER, A. I. /Uroagglutination reaction in typhus/ 43.
SHKORBATOV, V. I. /Results of DVIEM epidemiological section's work in the study of tick typhus in the Khabarovsk region/ 43-6.
SAVICKAIA, E. P. /Characteristics of the various strains of tick typhus in experiments with monkeys/ 47-50.
SOLITERMAN, P. L. /Characteristics of strains of the virus of tick typhus in Central Siberia isolated from the tick Dermacentor nuttalli/ 50.
MAIOPIS, E. M., & WEISSMAN, R. G. /Disinsectization with ammonia/ 50.
MALTSEV, V. V. /Disinfection in small heated chambers/ 51.
IGNATIEV, S. M. /Anabasis-afille and its preparation in pediculosis coptrol/ 52.
JOFFE, V. I. /Microbiology of scarlet-fever and streptococcal infections of the pharynx from the epidemiological standpoint/ 52-60.
_____ /Serology and immunology of scarlet fever/ 60-8.
SHCHEPETOV, P. N. /On the presence of normal tetanic antitoxins in the blood of certain domestic animals/ 69-74.
MARKOVICH, A. V., KHAUSTOVA, I. M. /et al./ /Purification of tetanus anatoxin by means of dialysis and electrodialysis/ 74-7.
BORISOV, P. I., & MIROSHNICHENKO, E. G. /Restoration of toxicity of liquid tetanus toxin with acids/ 78-80.
KHABAS, I. M., & TER-OSIPOVA, M. E. /A method of preparation of diphtheric anatoxin for subcutaneous and intranasal administration/ 80.
GORDINA, R. V., & LAKAEVA, O. A. /Analysis of the strains of paratyphoid bacilli observed in the USSR (S. paratyphi B and S. typhi murium)/ 81-7.
ROSKVAS, O. N. /Effect of dysenteric intoxication on the course of anaphylactic shock/ 87-9.
KRUPIN, N. V. /Glass and paper boxes as substitutes for Petri dishes/ 89.

J. mikrob., Moskva, 1944, No. 3

/OBITUARY/ 3. /Fride, Ksenia Alekseevna/
GAISKY, N. A. /Infection and immunity in hibernating animals/ 5-14.
ZHUKOV-VEREZHNIKOV, N., & GUSEVA, G. /Immunology of plague/ 14-6.
BERMAN, V. M., & SLAVSKAIA, E. M. /The phenomenon of monolateral immunity/ 16-23.
JOFFE, V. I., & ROSENTHAL, K. M. /Indications of the microbial state and their role in microbiological analysis of the infectious process/ 23-35.
JOFFE, V. I. /On the immunological and epidemiological characteristics and specific prophylaxis of scarlet fever/ 35-49.
FRIDE, K. A., EBERT, M. K., & CHISTOSERDOVA, G. V. /Effect of endocrine glands on the infectious process and immunity/ 49.
EBERT, M. K. /Effect of endocrine glands on the infectious process and immunity/ 50.
ANINA-RADCHENKO, N. D. /Role of hormonal preparations in the production of antibodies and in development of immunity/ 51.
GROMASHEVSKY, L. V., & STEPANOV, I. R. /Epidemiology of typhus/ 52-6.
HANDELSMAN, B. I., GINZBURG, R. M., & MILLER, R. I. /Aerosol as a method for disinfecting air/ 56-61.
KHANENIA, P. S. /The history of K-preparation for delousing/ 61.
ZHURAVLEV, S. F. /Diethylxantogen (K-preparation) for delousing/ 62.
SOBOLEVA, M. I. /K-preparation in pediculosis control/ 64-6.

SKORIN, I. K. /Bactericidal action of K-soap and K-preparation/ 66.
KHANKINA, F. S., & ZHURAVLEV, S. V. /SK preparation; delousing/ 67.
SOKOLOVA, N. /The study of SK-dust under practical conditions/ 68.
ZASOV, V. A., & BELOKRINITSKY, K. P. /The derivatives of diphenylamine as insecticides/ 68-70.
SOKOLOVA, N. I. /Diphenylamine and its homologs as pediculocide impregnants/ 71.
MIKHAILEV, V. A., & SUKHAREVA, M. D. /Diamethane/ 72.
EVREINOVA, L. I., & SAZONOVA, M. A. /On the insecticidal action of lethane-preparation (384)/ 74.
SOLOMENAIA, T. U., EVREINOVA, L. I. /et al./ /Pine-needle oil as an insecticide/ 76-9.

Med. parazit., Moskva, 1944, 13:

KAMALOV, M. G., GORDADZE, G. N. /et al./ /The treatment of anemia in ankylostomiasis with iron compounds/ 3-17.
SOKOLOVA, L. I. /On the epidemiology and prophylaxis of hymenolepidosis/ 18-26.
IVUSHKOV, M. P., & SCHLEICHER, E. /Immunity to superinvasion in hymenolepidosis/ 26-30.
IVUSHKOV, M. P., & VAVILOVA, M. P. /On intraintestinal autoreinvasion in hymenolepidosis/ 31-4.
CHIMAEV, P. P. /Methods of counting anopheles larvae/ 35-48.
IVANOV, I. K. /Effect of osmotic pressure on oviposition and development in anopheles larvae/ 49-53.
ANDREOV, A. I., & TROFIMOV, G. K. /Use of petroleum refuse (green oil) in mosquito larvae control/ 53-5.
_____ /Use of petroleum refuse (green oil) in control of adult mosquitoes/ 56-8.
USTINOV, A. A. /The role of Gambusia in the control of mosquito larvae in Abkhazia/ 58-66.
KHUZACKY, L. I. /Amphibians and reptiles as natural enemies of Gambusia/ 67-71.
APANASEV, S. F. /Some facts on Gambusia viability and other phenomena observed in the barrage lakes of Chechen-Ingush/ 71-3.
KRYZHANOVSKY, O. /Raptorial beetles of Tadjikistan which destroy the larvae of flies/ 73-8.
RUKIN, V. A., CHAGIN, K. P., & MUROVANSKYI, I. L. /Organization of tick control measures in an area of tick encephalitis/ 78-85.
KALANDYEV, N. I. /The action of certain preparations of pyrethrum on pediculus vestimenti/ 85-8.

6. Biology; Embryology

Arq. biol., S. Paulo, 1944, 28: (Mar.)

KICHBAUM, F. W. O estado atual da quimioterapia da tuberculose. 25-31.
MANCINELLI, L. Uma nova aplicacao terapeutica do cloreto de potassio, no tratamento da hipertensao arterial no homem. 31-4.
PAIO NETTO, R. Folhas de ipeca. 34-6.
ALCOCA, E., & OTTERSOOSER, F. Sobre uma possivel relacao entre a acao pirogenica e um fenomeno de gelificacao apresentado por diversos germes. 36-9.
GONZALEZ TORRES, D. M. Anatomia patologica de monomucleose infecciosa ou febre ganglionar de Pfeiffer; estudo de outro ganglio obtido por biopsia. 39-41.

CARINI, A., & SPRINGER, L. Caso humano de pequeno cisto subcutaneo cheio de esporos de um cogumelo nao identificado. 42-5.

Austral. J. Exp. Biol., 1944, 22:

KELLAWAY, C. H., & RAWLINSON, W. A. Studies on tissue injury by heat; the influence of anoxia. 63-8.
RAWLINSON, W. A., & KELLAWAY, C. H. Studies on tissue injury by heat; the liberation of enzymes from the perfused liver. 69-81.
KELLAWAY, C. H., & RAWLINSON, W. A. Studies on tissue injury by heat; isolated limb preparations. 83-93.
DAVIDSON, J. On the growth of insect populations with successive generations. 95-103.
NORTH, E. A. A study of the immunological reactions of the variola and vaccinia viruses grown in the developing egg. 105-9.
WOOD, J. G., & CHUICKSHANK, D. H. The metabolism of starving leaves; changes in amounts of some amino acids during starvation of grass leaves; and their bearing on the nature of the relationship between proteins and amino acids. 111-23.
FANIL, P. The action of 3,3'-ethylidene-bis (4-hydroxy coumarin) as a blood anticoagulant. 125-9.
NELSON, J. F. The anti-insulin action of anterior pituitary extracts. 131-3.
HUMPHREY, G. F. Glycolysis in extracts of oyster muscle. 135-8.
